

MILCC  
Monetary Investment For  
Lactation Consultant Certification

MILCC is an international non-profit organisation which provides financial assistance to International Board Certified Lactation Consultant (IBCLC) candidates who demonstrate financial need and work with populations which otherwise may not have access to the specialized skills of an IBCLC. You can help aspiring professionals gain the knowledge and certification they need to succeed by contributing to Monetary Investment for Lactation Consultant Certification (MILCC). Recipients are truly international. In recent years they have represented such diverse countries as Guatemala, Sudan, the Philippines, and Hungary, as well as the United States, Canada, and Australia. MILCC is funded exclusively from private donations and through the sale of IBCLC pins, bars and retractable key ring reels. As we have no other source of funding at this time, your donations are greatly needed and appreciated. Please consider donating to MILCC. All proceeds from the sale of IBCLE pins and bars go directly to provide financial assistance towards certification fees for low-income but highly qualified exam candidates working for underserved populations.

Who Benefits?

- Low-income practitioners
- New Mothers and Infants
- Families
- Hospitals seeking to improve Infant care
- Communities Worldwide

Donations over \$100.00 are listed on the MILCC website.

Please list my donation of \$100.00 or more on the MILCC website
